About us

Founded in 2013 in Dammam, the vibrant heart of Saudi Arabia's industrial sector, Support Lines has grown from a promising startup into a beacon of service excellence and innovation.

Originating from the bustling oil hub of the Eastern Province, we have rapidly evolved, extending our reach and enhancing our capabilities to meet and exceed the dynamic needs of our clients in various sectors, including oil and gas, petrochemicals, and more.

Our journey is driven by a commitment to quality and a deep understanding of our client's requirements, ensuring we deliver solutions that are not only effective but also sustainable.

VISION

"Our vision is to forge a path toward long-term sustainable growth, enriching our customers' operations with world-class, highly differentiated products and services. We aim to be the gold standard in our industry, recognized for our superior returns and forward-thinking approach".

MISSION

"We are on a mission to establish ourselves as a leader in the industry, renowned for the exceptional quality, reliability, and customer satisfaction we deliver. Our goal extends beyond national borders, aiming for regional and international acclaim by consistently providing top-tier services and products"

VALUES

- **Integrity**

We adhere to high ethical standards, ensuring our decisions are transparent and honest.

- **Pursuit of Excellence**

Our relentless drive to surpass what we previously achieved sets us apart. We aim to elevate every project beyond our client's expectations.

- **Accountability**

Each team member embraces full responsibility for their actions, contributing to our collective success.

Why support lines

At Support Lines, we do more than just supply products we deliver value through an integrated supply chain built on speed, reliability, and strategic expertise.

Our deep industry knowledge, global sourcing network, and client-focused logistics solutions make us a trusted partner across multiple sectors .

With a strong foundation in procurement, warehousing, and after-sales service, we ensure our clients receive end-to-end support from planning to delivery.

QUALITY & SAFETY POLICY

At Support Lines, our commitment to excellence is paralleled by our dedication to safety and quality. Certified to ISO9001:2015, 14001:2015 and ISO 45001:2018 standards, we maintain a rigorous quality management system, ensuring each project is executed precisely and adhering to the highest safety and operation integrity standards.

This dual commitment protects our workforce and provides the reliability and excellence of our deliverables, safeguarding your investments and the environment.

Our approach combines strategic planning with proactive risk management, creating a safe workplace and delivering services that clients can trust without reservation. This policy underpins every operation, fostering a culture where quality and safety converge through continuous improvement and innovative practices.

By navigating the complexities of modern industries with agility and expertise, Support Lines stands as your partner in achieving exceptional results and advancing safely and effectively toward a prosperous future.

INDUSTRIAL RELATIONS

KEY PILLARS OF OUR INDUSTRIAL RELATIONS STRATEGY

At Support Lines, we recognize the critical importance of establishing and maintaining high standards of industrial relations on every project site. Our proactive planning and management approach is designed to foster a positive, compliant, and efficient working environment. To achieve this, we implement the following key measures:

- **Experienced and skilled work force**
- **Clear and Defined Service Expectations**
- **Compliance and Ethical Standards**
- **Effective Dispute Resolution**

QUALITY CONTROL

At Support Lines, Quality Control is recognized as a vital management tool, central to our operational strategy and project execution. We see it not only as a means to uphold standards but also as a proactive method for maintaining and continuously improving quality while ensuring cost efficiency. Our approach integrates Quality Control into every phase of our operations—from planning and procurement to execution and final delivery—enabling us to:

- Proactively identify and mitigate risks that could compromise quality or lead to costly rework.
- Streamline processes through consistent monitoring and evaluation, fostering a culture of continuous improvement.
- Optimize resource utilization, reducing waste and enhancing productivity across all project areas.
- Deliver reliable, high-standard outcomes that meet both regulatory requirements and client expectations.

STANDARDS & COMPLIANCE

At Support Lines, we maintain a firm commitment to quality compliance, adhering rigorously to internationally recognized standards including NACE, SSPC, CSA, ISO, and ASTM, in conjunction with the Owner's project specifications. These standards serve as the foundation for our quality assurance framework, ensuring that every project is completed to the highest levels of technical and operational excellence.

Our approach to Quality Control extends far beyond production. It is an organization-wide responsibility embedded in every facet of our operations—from initial project planning and resource allocation, through staff training and competency development, to final execution and project handover.

This holistic and structured approach allows us to consistently deliver projects that meet or exceed expectations, reinforcing our reputation for quality, reliability, and professionalism.

Blasting And Painting Manpower

110 Total Crew Members

Our team comprises skilled professionals with diverse expertise in industrial surface treatments and protective coatings.

21 Abrasive Blasters

Experienced professionals in advanced surface preparation techniques.

18 Spray Painters

Our team Comprises skilled professionals with diverse expertise in industrial surface treatments and protective coatings.

49 Skilled Labor Brush painters &Helpers

Our team Comprises skilled professionals with diverse expertise in industrial surface treatments and protective coatings.

02 QA/QC Inspectors

Experienced and NACE Certified QA/QC Inspector for types of Quality Inspection and for Projects (Aramco, SABIC, AMIRAL & Non-Aramco).

20

Experienced and NACE Certified QA/QC Inspector for types of Quality Inspection and for Projects (Aramco, SABIC, AMIRAL & Non-Aramco).

Blasting And Painting Equipment

08 Air Compressor Own & Rental

We have Air Compressor of 850 cfm & 400 cfm working at different Projects.

20 Blasting Pot With Full Set

We have well equipped state of the art Blasting Pots with full set to cater our projects.

20 Spray Pump

Spray pumps well maintained and calibrated to cater our projects.

12 After Cooler

Aftercoolers well maintained and calibrated to cater our projects.

10 Air Receiver Tank

Aftercoolers well maintained and calibrated hydrotested to cater our projects.

10 Inspection Test kit

Mix of Elcho-meter and Posit Ector equipment which are Office well maintained and calibrated to cater our projects.

04 Forklift

Forklift with 10 tons capacity in Painting Yard and various Projects.

04 Paints Storage Container

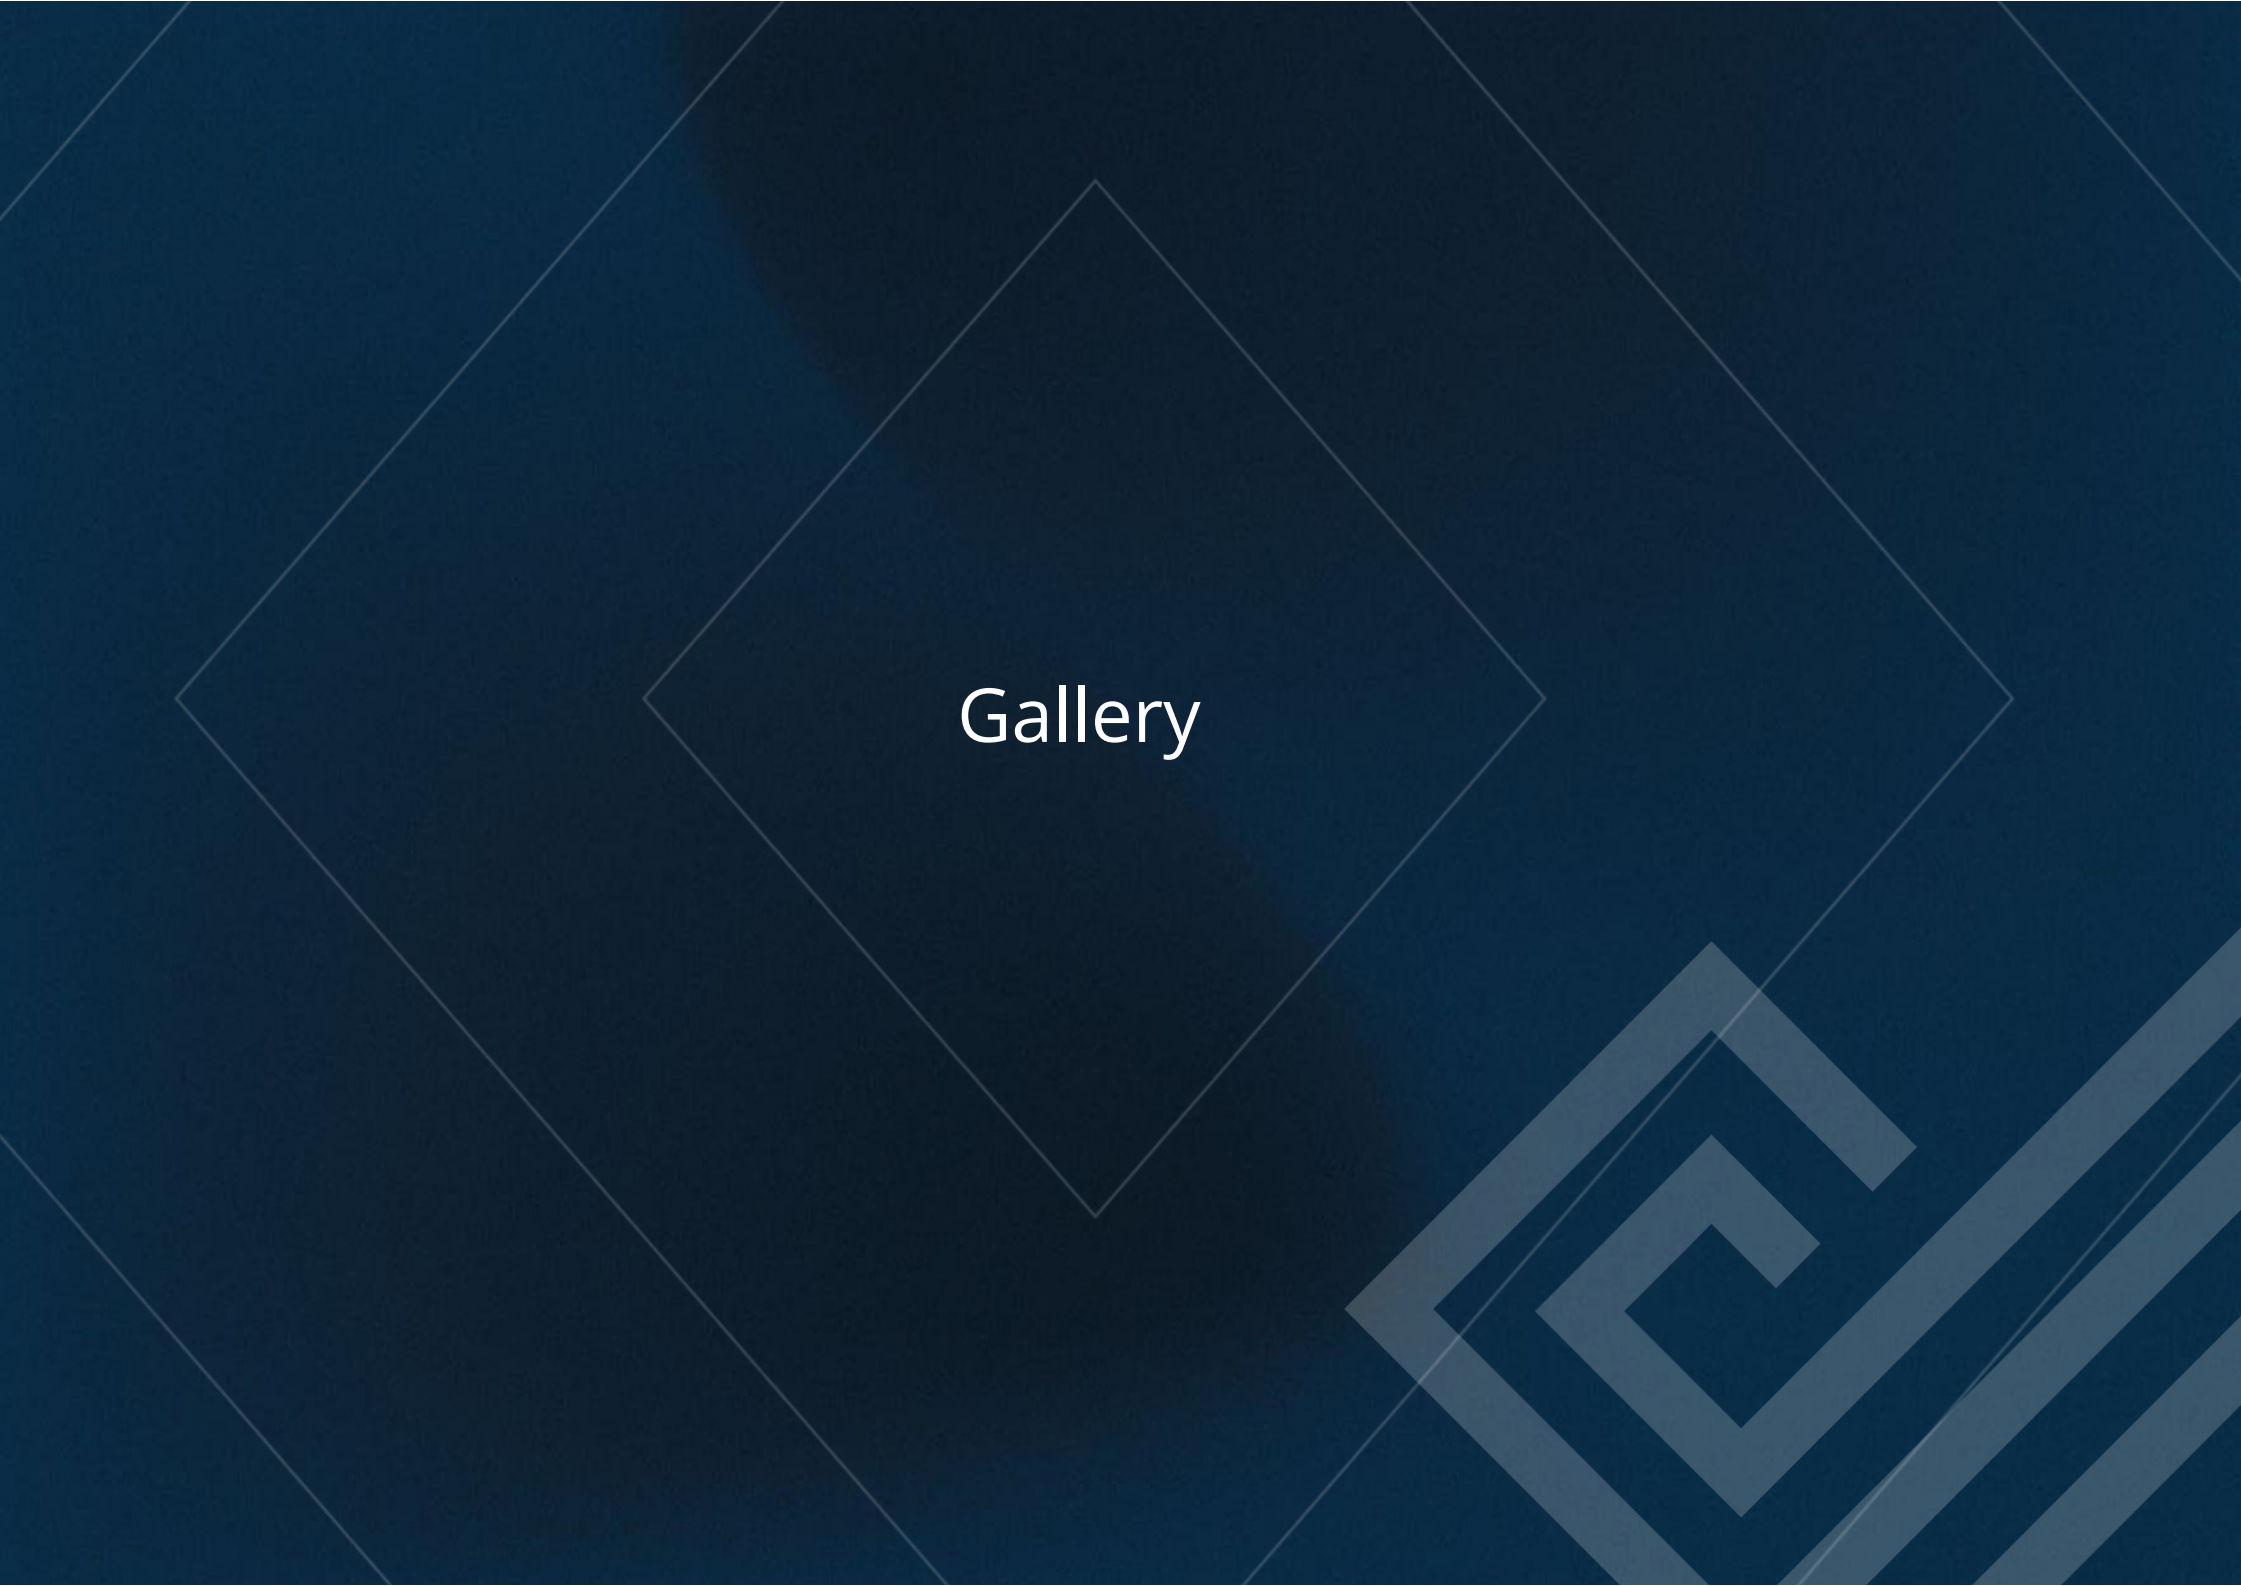

Paint Storage container (40' & 20') with Aramco & Amiral Project Approval.

04 Office Container

Office Container for Staffs and Client Representatives.
